STATE IMPLEMENTATION PLANS

Proposed Compliance Schedules for Alabama

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

STATE IMPLEMENTATION PLANS

Proposed Compliance Schedules for Alabama

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51 require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of Alabama's State implementation plan.

On February 15, 1973, pursuant to 40 CFR 51.6, the State of Alabama submitted for the Environmental Protection Agency's approval revisions to the compliance schedule portion of its plan. This publication proposes that certain of these revisions be approved. Others are still undergoing review and cannot be proposed for approval at this time. Each proposed revision establishes a new date by which an individual air pollution source must attain compliance with an emission limitation of the State implementation plan. This date is indicated in the succeeding table under the heading "Final Compliance Date." In many cases the schedule includes incremental steps toward compliance, with interim dates for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. All of the compliance schedules listed here are available for public inspection at the following locations:

Air Programs Branch
Environmental Protection Agency
Region IV
1421 Peachtree Street NE.
Atlanta, Ga. 30309

Division of Air Pollution Control
State of Alabama Department of Public Health
645 S. McDonough Street
Montgomery, Ala. 36104

Each compliance schedule has been adopted by the Alabama Air Pollution Control Commission and submitted to EPA after notice and public hearing in accordance with the procedural requirements of 40 CFR Part 51. Each also satisfies the substantive requirements of 40 CFR Part 51 pertaining to compliance schedules, and has been determined to be consistent with the approved control strategies for the State of Alabama.

An evaluation of the Alabama compliance schedule submittal is available for public inspection at the Atlanta location listed above.

All interested parties are encouraged to submit written comments on the proposed plan revisions. These comments will be weighed carefully by EPA before the agency decides to approve or disapprove this change in the Alabama plan. Comments will be accepted until December 31, 1973. These should be addressed to the Director, Air and Water Programs Division, Envionmental Protection Agency, Region IV, 1421 Peachtree Street NE., Atlanta, Ga. 30309, Attention: Mr. Strickland. Receipt of comments will be acknowledged, but no substantive response will be made.

(42 U.S.C. 1857c-5.)

Dated: November 16, 1973.

RUSSELL E. TRAIN,
Administrator.

It is proposed to amend Part 51 of Chapter 1, Title 40 CFR as follows:

Subpart B—Alabama

1. A new § 52.55 is added as follows:

§ 52.55 Compliance schedules.

(a) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.6 of this chapter. All regulations cited are air pollution control regulations of the State.

STATE OF ALABAMA

Source	Location	Regulation involved	Date of adoption	Effective	Final compliance date
American Can Co. permit No.:					
(a) 101-0001-W001	Nehoela	4.8.2	Feb. 8, 1973	Immediately	May 31, 1975
(b) 101-0001-W002	do	4.8.2	do	do	Do.
(c) 101-0001-W005	do	4.7.2; 5.4.2	do	do	Do.
